

min.css > .css > index  
no override styling odd  
'I important; that will  
always be true

- Home
- About
- Features
- Sign up
- Meet the Team
- Contact
- map theme space

- template changes:
- make contact space smaller
  - make map space larger
  - download → email sign up space
  - make about larger + divide into 2 features
  - add icons to feature section
  - app template / preview?
  - what kind of map information?
  - make navbar transparent on scroll • team section
  - add pages to navbar
    - contact section
  - add Sign up box → pop up from bottom button
    - features styling
- decide on downloads vs
- join in navbar
- feature scrolls down too much
